Health & Safety Policy Statement

Hall & Kay Fire Services Ltd t/a Hall & Kay Fire Engineering

Protecting the health & safety of our employees, contractors, our customers and the natural environment is a core value within Hall & Kay Fire Engineering.

We will not be satisfied until our workplaces are safe from hazards, our employees are injury free, our services and products are safe and our commitment and record in regulatory compliance and protection of health & safety is unmatched.

Specifically, we will.

- Strive to eliminate all injuries by making places of work free from hazards and unsafe actions.
- Comply with all applicable Health & Safety legislation, follow company and agreed customer requirements as well as implementing best practice.
- Establish annual objectives and targets for continuous improvement of both H&S performance and accident/incident rates and establish the business plans necessary to achieve these goals.
- Supply the resources, financial and physical, to ensure that H&S is given the highest priority.
- Provide the necessary information, instruction, training and supervision to ensure our H&S goals and targets are met.
- Implement a documented EH&S Management System that covers all aspects of the business to reduce risks.
- Provide continual improvements to the effectiveness of our processes and operations.
- Present accurate and timely measurement and reporting of our H&S performance to monitor the effectiveness of the H&S programme.
- Conduct a formal annual review and produce an annual H&S business plan.
- Integrate H&S considerations into investment decisions, the design of services and products and in dealing with suppliers and contractors.
- Require all employees to adhere to these standards and provide management commitment to the means and resources necessary to lead, support, monitor and maintain accountability for implementation of this policy.

Health & Safety in the workplace and the protection of the environment is everyone's responsibility. The active participation and support of all our employees is of vital importance to maintaining and improving both our environmental as well as our health & safety performance.

Richard King
Managing Director
